

The TurboFan® combines the features and ease-of use and high-efficiency benefits of the standard Inline centrifugal fan, with an enhanced design that provides higher CFM at the same static pressure –with no offsetting increase in horsepower requirements. The TurboFan® delivers high-efficiency, high-volume airflow in moderate pressure applications. It incorporates the following features:

- 100% CSA Certified fan and components.
- Heavy gauge steel housing with platform feet.
- Spun bell intake for smooth air intake and high efficiency.
- Air straighteners to efficiently align the air stream.
- Aluminum fan rotor for a light weight efficient design, corrosion resistance, and quick starts with lower amp draw.
- Powder coated body and zinc-plated screen for long life.
- Internal motor that is 100% CSA Certified and thermally protected.
- Weather-tight control enclosure.

TurboFan® specifications

Static Pressure (inches)	Airflow (CFM) @ 3450 RPM		
	3 HP	5 HP	7½ HP
3	3850		
4	3700		6000
5	3250	4500	5700
6	2800	4250	5400
7	2400	3600	5100
8	1250	3300	4700
9		2200	4100
10			3250
